

# ACADEMIC MEDICAL LIBRARY: A SUMMARY ON IMPORTANT RESEARCHES

VIROJ WIWANITKIT\*

## ABSTRACT

Library is an important for collection book and media. The library is usually the referencing site for knowledge gathering. The academic medical library is usually important knowledge center for medical personnel. In the present report, the author summarizes and discusses on important publications regarding academic medical library.

**KEY WORDS:** Medical, Library. Academic.

## INTRODUCTION

Library is an important for collection book and media. The library is usually the referencing site for knowledge gathering. The collections in the library are usually used for academic searching for local people. Some kinds of library collect only specific documents in a specific field. The medical library is a good example.

The academic medical library is usually important knowledge center for medical personnel. In the

present report, the author summarizes and discusses on important publications regarding academic medical library.

## IMPORTANT REPORTS ON ACADEMIC MEDICAL LIBRARY

There are many interesting important reports on academic medical library. The important reports are hereby listed in Table 1.

**Table 1. Important reports on academic medical library**

Authors	Details
Taylor and Stephenson [1]	Taylor and Stephenson noted that " <i>Librarians in the federal sector, like librarians in other medical center libraries, increasingly find it necessary to prove their worth to administrators of their facilities in order to keep their libraries open</i> [1]."
Swanberg et al [2]	Swanberg et al. concluded that " <i>Among its successes and challenges, the library's ongoing outreach efforts have showcased the value of libraries in promoting community health and meaningfully contributing to the institutional mission</i> [2]."
Jordan [3]	Jordan discussed on the concept of the medical center [3].
Beaty [4]	Beaty discussed on the the new medical center library [4].
Koehler et al [5]	Koehler et al. discussed on a short history of the William H [5].

\*Adjunct Professor, Joseph Ayobabalola University, Ikeji-Arakeji, Nigeria.

**Correspondence E-mail Id:** editor@eurekajournals.com

Smith [6]	Smith presented on " <i>an historical accounting of four major pieces of legislation, beginning with the NLM Act of 1956 up through the creation of the National Center for Biotechnology Information [6].</i> "
Morgen [7]	Morgen discussed on " <i>implementing PDA technology in a medical library: experiences in a hospital library and an academic medical center library [7]</i> " and concluded that the model " <i>could be used in either a hospital or academic health sciences library [7].</i> "
Bryant [8].	Bryant discussed on "The Milton S. Hershey Medical Center Library of the Pennsylvania State University [8]."
Wessel et al [9]	Wessel et al. discussed on the role of the academic medical center library in training public librarians [9]. Wessel et al. concluded that " <i>academic medical center libraries can have a positive impact on their communities by providing health information instruction to public librarians [9].</i> "

**CONCLUSION**

There are many reports on academic medical library in several aspects, especially for history and new innovation implementation. Those reports are good pieces for referencing in the field of library science.
